Telephone gateway announced

Houston AMSAT Net: Live on world wide web in Real Audio.

Contact Bruce Paige at kk5do@amsat.org for more info.

Long Island Monitoring Association

From Ed (KC2AYC) : The Long Island Monitoring Association went belly up, mainly because the 146.805 repeater has problems for over 2 years now at the antenna site and it killed the net.

The group has now splintered off in to two active e-mail reflectors, ScanCom <http://groups.yahoo.com/group/ScanCom> and the Uniden-bc780 Users Group <http://groups.yahoo.com/group/Uniden-bc780>. We also still hold monthly gatherings on the 3rd Thursday of the month at Fudruckers Restarant on Merrick Avenue in Westbury, Long Island.

Matapac Net

145.41 and 147.075 MHz, Monday at 8:30 pm; Atlanta, GA.
