# SHORTWAVE FREQUENCY LIST

**Frequency order list of  
shortwave broadcasting stations  
around the world for  
the B24 season**

# Shortwave Frequency List for the B24 season

Compiled and edited by Tony Rogers

This is frequency-order list of shortwave broadcasting stations for the B24 season. It is intended to work in conjunction with the various shortwave guides available at <https://www.bdx.org.uk/>.

The list has been compiled with reference to HFCC registrations at <http://hfcc.org/data/guidepost.phtml>, to station schedules, and to the current shortwave guides. And two well-established lists have been consulted when necessary: Eike Bierwirth's "EiBi Shortwave Schedules" at <http://www.eibispace.de/> and Shiganori Aoki's frequency list on the Nagoya DX Circle website at <http://www1.s2.starcat.ne.jp/ndxc/>.

Entries marked for DRM (in green) are mostly based on Chris Mackerell's up-to-date list at <https://www.drmtx.org/drm-broadcasts-all-by-frequency/>. Additional registrations for DRM transmissions appear in the HFCC database for B24 but have been omitted from this list as they appear not have been activated at the time of editing.

If anything is wrong, it can be corrected! Just let me know. Thanks.

Please note that this frequency list is usually compiled in stages when time allows and in the case of this particular edition it was completed in full on 31 December 2024, just over nine weeks after the B24 season began. The lists compiled by Eike Bierwirth and Shiganori Aoki (see links above) are always ready much sooner.

A guide to stations on the Tropical Bands is currently being compiled.
