Target Listening provides a guide to where, when and how to hear radio countries operating on the shortwave bands. Reports from DX references and our readers are used to compile tips that can assist you to hear these countries.

[This column was updated on June 29th.](#)

To use these by-time Target Listening pages remember that in many cases a broadcast extends over several hours. We have split broadcasts into individual hours. This legend explains:

|                                          |                                            |
|------------------------------------------|--------------------------------------------|
| 0000- Broadcast begins at 0000 UTC       | -0100 Broadcast closes at 0100 UTC         |
| 0100> Broadcast continues past 0100      | <0000 Broadcast on the air before 0000 UTC |
| 0100+ Broadcast may be audible past 0100 |                                            |

Times below are in UTC. Frequencies are in kHz. v = frequency may vary
